ELSEVIER

Molecular Basis of Disease

Vol. 1360, 1997

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Cumulative Contents

Editorial vii

Information for Contributors xi

Rapid report

The locations of the *H-twist* and *H-dermo-1* genes are distinct on the human genome
F. Perrin-Schmitt, A.L. Bolcato-Bellemin, P. Bourgeois, C. Stoetzel and J.M. Danse (France) 1

Review

Copper transport and its alterations in Menkes and Wilson diseases
M. DiDonato and B. Sarkar (Canada) 3

Regular papers

Influence of advanced glycation end-products and AGE-inhibitors on nucleation-dependent polymerization of β-amyloid peptide
G. Münch, S. Mayer, J. Michaelis, A.R. Hipkiss, P. Riederer, R. Müller, A. Neumann, R. Schinzel and A.M. Cunningham (Germany, Australia, UK) 17

Mutually co-operative interactions between modulators of *P*-glycoprotein
Y.-m. Shao, S. Ayesh and W.D. Stein (Israel) 30

Differential expression of ferritin Heavy chain in a rat transitional cell carcinoma progression model
J.A.M. Vet, R.J.A. Van Moorselaar, F.M.J. Debruyne and J.A. Schalken (The Netherlands) 39

Doxorubicin-induced acute changes in cytotoxic aldehydes, antioxidant status and cardiac function in the rat
X. Luo, Y. Evrovsky, D. Cole, J. Trines, L.N. Benson and D.C. Lehotay (Canada) 45

Cytomedical therapy for IgG1 plasmacytosis in human interleukin-6 transgenic mice using hybridoma cells microencapsulated in alginate-poly(L)lysine-alginate membrane
N. Okada, H. Miyamoto, T. Yoshioka, A. Katsume, H. Saito, K. Yorozu, O. Ueda, N. Itoh, H. Mizuguchi, S. Nakagawa, Y. Ohsugi and T. Mayumi (Japan) 53

Transforming growth factor-β reverses deficient expression of type (I) collagen in cultured fibroblasts of a patient with metageria
N. Hunzelmann, U. Ueberham, B. Eckes, K. Herrmann and T. Krieg (Germany) 64

Treatment-induced changes in ^{31}P-MRS (magnetic resonance spectroscopy) spectra of sera from patients with acute leukemia
M. Kuliszkiewicz-Janus and S. Baczyński (Poland) 71

Oxidative damage to collagen and related substrates by metal ion/hydrogen peroxide systems: random attack or site-specific damage?
C.L. Hawkins and M.J. Davies (UK) 84

Information for Contributors vii

Rapid report

Molecular cloning of murine ICA69: diabetes-prone mice recognize the human autoimmune-epitope, Tep69, conserved in splice variants from both species
W. Karges, R. Gaedigk, M.F. Hui, R. Cheung and H.-M. Dosch (Canada) 97

Short sequence-papers

Nucleotide sequence of the *vmhA* gene encoding hemolysin from *Vibrio mimicus*
G.-T. Kim, J.-Y. Lee, S.-H. Huh, J.-H. Yu and I.-S. Kong (South Korea) 102

Variations in the C-terminal repeats of the knob-associated histidine-rich protein of *Plasmodium falciparum*
H. Hirawake, K. Kita and Y.D. Sharma (Japan, India) 105

Review

T-cells in the pathogenesis of rheumatoid arthritis Villains or accomplices?
R.W. Kinne, E. Palombo-Kinne and F. Emmrich (Germany) 109

Regular papers

Application of inhibitor titrations for the detection of oxidative phosphorylation defects in saponin-skinned muscle fibers of patients with mitochondrial diseases
A.V. Kuznetsov, K. Winkler, E. Kirches, H. Lins, H. Feistner and W.S. Kunz (Germany) 142

Succinyl-CoA:3-ketoacid coenzyme A transferase (SCOT): development of an antibody to human SCOT and diagnostic use in hereditary SCOT deficiency
X.-Q. Song, T. Fukao, G.A. Mitchell, S. Kassovska-Bratinova, M. Ugarte, R.J.A. Wanders, K. Hirayama, H. Shintaku, P. Churchill, H. Watanabe, T. Orii and N. Kondo (Japan, Canada, Spain, The Netherlands, USA) 151

Glutathione metabolism in hepatomous liver of rats treated with diethylnitrosamine
H.S. Marinho, M. Baptista and R.E. Pinto (Portugal) 157

The molecular basis for cross-reaction of an anti-dystrophin antibody with alpha-actinin
M. James, N. Thi Man, Y.H. Edwards and G.E. Morris (UK) 169

Activation of protein kinase C by intracellular free calcium in the motoneuron cell line NSC-19
M.I. Hasham, S.L. Pelech, H.B. Koide and C. Krieger (Canada) 177

Information for Contributors *vii*

Rapid report

Quantitative analysis of mitochondrial DNA deletion in paraffin embedded muscle tissues from patients with KSS and CPEO
S.H. Kim, J.G. Chi, A. Reith and B. Kadenbach (South Korea, Germany) 193

Regular papers

Evidence for increased hydroxylation of pyrrolidone amino acid residues in the cuticle of mature *Onchocerca volvulus*
A.M. Sakwe and V.P.K. Titanji (Cameroon) 196

Purine nucleotide metabolism: specific aspects in chronic lymphocytic leukemia lymphocytes
F. Carlucci, F. Rosi, C. Di Pietro, E. Marinello, M. Pizzichini and A. Tabucchi (Italy) 203

Molecular bases of hexokinase deficiency
M. Bianchi, R. Crinelli, G. Serafini, C. Giammarini and M. Magnani (Italy) 211

Chemiluminescence and antioxidant levels during peroxisome proliferation by fenofibrate
S. Lores Arnaiz, M. Travacio, A.J. Monserrat, J.C. Cutrín, S. Llesuy and A. Boveris (Argentina) 222

The human peroxisomal multifunctional protein involved in bile acid synthesis: activity measurement, deficiency in Zellweger syndrome and chromosome mapping
D. Novikov, M. Dieuaide-Noubhani, J.R. Vermeesch, B. Fournier, G.P. Mannaerts and P.P. Van Veldhoven (Belgium) 229

Association of malaria with inactivation of α1,3-galactosyl transferase in catarrhines
R. Ramasamy and R. Rajakaruna (Sri Lanka) 241

Lead induced rise in intracellular free calcium is mediated through activation of protein kinase C in osteoblastic bone cells
F.A.X. Schanne, G.J. Long and J.F. Rosen (USA) 247

The effect of histological processing on the form of iron in iron-loaded human tissues
W. Chua-anusorn, J. Webb, D.J. Macey, P. Pootrakul and T.G. St. Pierre (Australia, Thailand) 255

Polyunsaturated fat in the diet may improve intestinal function in patients with Crohn's disease
M.A. French, A.M. Parrott, E.S. Kielo, R.V. Rajotte, L.C.H. Wang, A.B.R. Thomson and M.T. Clandinin (Canada) 262

Failure of muscle energy metabolism in a patient with adenylosuccinate lyase deficiency. An in vivo study by phosphorus NMR spectroscopy
C. Salerno, S. Iotti, R. Lodi, C. Crifò and B. Barbiroli (Italy) 271

A mutant cell line resistant to *Vibrio parahaemolyticus* thermostable direct hemolysin (TDH): its potential in identification of putative receptor for TDH
G. Tang, T. Iida, H. Inoue, M. Yutsudo, K. Yamamoto and T. Honda (Japan) 277

Cumulative contents, Vol. 1360 283

Author index 285
